## ARIES RESOURCE CORP

1255 W. Pender St, Vancouver, BC  
Attn: Mr. **Reza Mohammed**

## QUOTATION

**DRAFT**

Dear Sir,

### **Re: Trident project, Liard M.D., BC**

We are pleased to quote on the background work needed for the preparation of a technical report complying with the standards of NI 43-101.

The scope of the work includes property preparation, travel Vancouver-Fort Nelson return, helicopter-supported visits to 23 properties including prospecting and sampling as required. We understand that Mr John Kowalchuk of Aries will accompany us on this project.

The numbers for budget purposes are detailed in Schedule "A", which is attached to this quote. The budgeted total of \$89,260 before GST assumes helicopter expenses of \$56,000, which consists of 14 days x 4 hours per day x \$1,000 per hour. Final arrangements can be made with the helicopter company only when we are sure of days and plans, and may vary significantly from this estimate.

Approximate time for completion is 21 days after the completion of the property visits.

We will need an official retainer letter from Aries per the requirements of NI 43-101. A retainer of \$3,000 will be required to start the project. Before the helicopter flights begin, the full amount of the estimated helicopter costs will have to be paid, along with a further retainer of \$7,000. The balance will be due and payable when the final report is completed, but before it is delivered.

Thank you for your attention.

Yours very truly,  
**RELIANCE GEOLOGICAL SERVICES INC**

**Wayne Fritz**
